# ACKNOWLEDGEMENT

The successful presentation of the **DBMS LABORATORY WITH MINI PROJECT (15CSL58)** would be incomplete without the mention of the people who made it possible and whose constant guidance crowned my effort with success.

I would like to extend my gratitude to the **MANAGEMENT, KAMMAVARI SANGHAM**, Bengaluru, for providing all the facilities to present the DBMS LABORATORY WITH MINI PROJECT

I would like to extend my gratitude to the **Dr. T.V. GOVINDARAJU**, Principal / Director, K.S. Institute of Technology, Bengaluru, for facilitating me to present the DBMS LABORATORY WITH MINI PROJECT.

I thank **Dr. REKHA B VENKATAPUR**, Professor and Head, Department of Computer Science and Engineering, K.S. Institute of Technology, Bengaluru, for her encouragement.

I would like to thank our Project Guide's, **Ms. SOUGANDHIKA NARAYAN**, Assistant Professor, and **Ms. SWATHI K**, Assistant Professor, Department of Computer Science and Engineering, K.S. Institute of Technology, Bengaluru, for their constant guidance and inputs.

I would like to thank all the **Teaching** Staff and **Non-Teaching** Staff of the college for their co-operation.

Finally, I extend my heart-felt gratitude to my **family** for their encouragement and support without which I wouldn't have come so far. Moreover, I thank all my **friends** for their invaluable support and cooperation.

**KETAN K**

## **ABSTRACT**

The task of keeping tabs on the current stock market is a meticulous task and collecting information about the latter on a day to day basis is tiring. In this project, the task of digitalizing this enormous task is undertaken. The first goal to be achieved is collecting information from various sources to have an established collection for the view required on the platform being built.

Features like advertising start-ups, housing projects and mutual fund policies for investments are implemented in this project. To keep tabs on the user sessions as they login with their registered account, will be implemented.

**“An Investment in knowledge pays the best interest”** – Benjamin Franklin

Wise words must be kept up with in the current scenario embracing the current trend of digitalization and this is the task of every individual.

## **CONCLUSION**

The Shares, Mutual Funds & Investment Management System allows a client to easily upload about themselves and access details about various investment options available around. It allows simplified operation and is a time saving platform. It offers a seamless interface between companies and clients.

The application has been completed successfully and tested with suitable test cases. It is user friendly and contains suitable options for users.

This is developed using Java as front end and MySQL as back end in Windows environment. The goals achieved by this project are:

- Instant access
- User friendly environment
- Efficient management of records
- Simplification of operations

## **FUTURE ENHANCEMENT**

Future upgrades to this project will implement:

- Will include a real time graph analysis to track the ups and downs of shares .
- Clients will be buy and sell shares directly from the website.
